

Justice for Simba: Ending the Hostile Environment

Public Meeting & Campaign Launch

Please come and join us to show your support for **Simba Mujakachi**, his family and all the people suffering from the Hostile Environment policies. Simba is a 30 years old refused asylum seeker from Zimbabwe faced with over £100,000 bill from the NHS, injustices, poor care services & uncertainty following a stroke last summer. **Simba will tell his story himself at the event with support from Victor & his partner Melissa.**

DATE: Wednesday 20th November 2019.

VENUE: The Victoria Hall, Norfolk Street, Sheffield, S1 2JB.

TIME: 7 to 9PM

Community members in Sheffield in the past came together and successfully got Simba's father **Victor Mujakachi** released from immigration detention. This campaign will build on that. Speakers at the event will include:

- **Sarli Nana** from Migrants Organise
- **Aliya Yule**, from Migrants Organise
- **James Skinner** from Medact
- **Dr Sophie** from Docs Not Cops
- A rep from the South Yorkshire Migration and Asylum Action Group (**SYMAAG**)

The speakers will share information about similar campaigns in other parts of the country and explain how people can work together to tackle these issues more effectively through the [Patients Not Passports Campaign](#).

There will also be a **Q&A session with candidates for Parliament** who have been invited to tell us how their parties will address the Hostile Environment policies and answer questions from constituents.

Come and make your voice heard and meet other lovely people working on these issues!

There is likely to be news coverage of the event. Should you not want to appear on camera please let us know at the event.

If you have any queries contact Sarli Nana on: 07834 365 257 Email: sarli@migrantsorganise.org or
